Bannack Ghost Town

During a trip to Bannack Ghost Town, I was able to play around with different auxiliary lighting as well as models. It was an incredible experience to be able to make these photos with Einstein Orbs, Wescott Apollo Orbs, Spiderlights, Rogue Flash-bender, and Reflectors, just to name a few.

This was a really beneficial experience for me to be able to understand the difference that lighting really makes when shooting photographs.

Being at Bannack was really amazing. The weather that we had while we were there was absolutely gorgeous.

As I went around the town and searched for things that I would love to put on my own wall. There were so many things that called to me, things that I just needed to be able to capture to share with the world and those around me.

Fine art was new for me, but I am so glad with the way things turned out. The hues of the sky, the eerie feeling of the baby coach. I enjoyed these.

Portraits

With these photos, I really wanted to capture the joy that I found in those around me. I really enjoy taking photos of people, so I had fun being able to capture some photos of my friends.

I took photos of my roommate, as well as my best friend at her wedding. I lightened the areas around their faces, and shifted the colors ever so slightly to add more vibrance to the photos.

Brielle is an artist, so this photo is something that I thought really captured her personality. While Paige and Colin are sharing a cute moment together.

I was able to take a trip out to Yellowstone National Park and capture some of the natural beauty that I am fortunate to live by. As I did so, I was struck with awe at all the different dynamics that such a beautiful place held. From the fishermen, to the buffalo, to the sulfur pots, there's something so amazing about the world around us. I took the opportunity to take these photos from different angles, including on the ground, up on a hill and from the side. It was an amazing experience, and I'm glad to share it with the world.

MACROS

This was a fun experience for me as well. To be able to try and focus on an object that was small, but create this beautiful image, as well as focusing on a water drop. This was challenging for me, but I enjoyed messing with the aperture and shutter speed to capture these photos.

Nicki Schumacher

Nicki is from Scappoose, Oregon. She is an aspiring photographer, and loves to take photos that people don't usually think to take.

Particularly, Nicki enjoys taking photos of nature and animals. She is open to trying and learning new things about photography and will see where that takes her.
